Atmospheric environments

Usage guide

Buildings with exposure to corrosive chemicals may require the ColorCote PLUS system to ensure the roof or cladding is protected from chemicals in the environment. Examples may include petrol stations, airport buildings, swimming pools, chemical storage facilities to name a few. Please contact ColorCote for a recommendation if your are unsure as to which paint system may be required

To ensure the correct product is recommended and a warranty given, use our online pre-warranty tool at www.colorcote.co.nz/about-us/waranty-enquiry.

*To ensure warranty will be given, check with ColorCote before using in these areas.

ISO Category 5

coast. May extend inland depending on local conditions including geothermal activity
