

Bulletin No.12 – Updated August 2025

ColorCote® Bright Colours

ColorCote® Bright paint colours do not contain ceramic pigmentation which therefore limits the consistency of colour retention compared to standard colours within our range. It is for this reason no paint / colour warranty can be provided for these paint colours.

Colour range available:

Standard Colour Range: Lazerite Blue, Poppy

Corporate Colour Range: Bunnings Green, Woolworths Green, Mega Orange, Placemakers Blue, Mainfreight Blue, PGG Wrightson Blue

Corporate colours are available as made to order products. Standard lead times do not apply with these colours and are only available as a paint on-line product, narrows are not included.

Furthermore, corporate colours are subject to supplier pigment availability and may differ batch to batch due to this.

New Colours process

- A physical sample must be provided to colour match to & terms & conditions will apply.
- Minimum order quantities will apply – 20 ton and over
- Dependant on paint availability, these paint colours are typically manufactured overseas and will incur a surcharge.
- Potentially up to 6 months to complete customised colour from start to finish
